codeforces.com/profile/Saif_Ahmed008

CSE undergraduate at MIST building LLM-powered and data-driven software. Worked on a FastAPI application that integrates the **Anthropic Claude API**, trained in AI/ML at JB Connect Ltd, and writes Python tooling for scraping, reporting and scheduling. Brings a strong algorithmic and mathematical base from competitive programming and production engineering discipline as the **sole developer of a live finance platform**.

Champion	**38th**	**1700+**	**1722**
BUP IAUPC 2025	ICPC Asia Dhaka Regional 2025	problems solved • CF Specialist	CodeChef max rating • 3-Star

EDUCATION

B.Sc. in Computer Science & Engineering 2023 – 2027 (Expected)
Military Institute of Science and Technology (MIST), Dhaka | *CGPA* **3.58 / 4.00** *(up to Level-3, Term-2)*

Higher Secondary Certificate (HSC) | Govt. M. M. College, Jashore | GPA 5.00 / 5.00 2022

TECHNICAL SKILLS

Languages	Python, C++, Go, TypeScript, JavaScript, SQL, Bash
AI / LLM	Anthropic Claude API, Vercel AI SDK (Google, OpenAI)
Python	FastAPI, Pydantic, SQLAlchemy, requests, BeautifulSoup, Selenium, ReportLab, pytest, Ruff, Black
Data	PostgreSQL (Neon, Supabase), MongoDB, Oracle, MySQL, web scraping, REST APIs (Codeforces API)
Deployment	Docker, GitHub Actions, Vercel, Render, Sentry
Core CS	Data structures, algorithms (graphs, DP, segment trees), OOP, system design

PROJECTS

QuestBoard — Gamified Q&A Platform for STEM Students (Team) GitHub
Python, FastAPI, Pydantic, SQLAlchemy, Anthropic Claude API, Supabase (Postgres), Flutter, Sentry

- Q&A platform integrating the **Anthropic Claude API** into a FastAPI backend; students post "quests" with point bounties and accepted answers earn the points.
- Typed request/response models (Pydantic), point-ledger economy covered by pytest, and GitHub Actions CI running Ruff, Black and pytest.

Rank-Raven — Codeforces Contest Reporter (Solo) GitHub
Python, Selenium, undetected-chromedriver, BeautifulSoup, requests, ReportLab

- Scrapes a Codeforces user list, counts each user's solves over the last 30 days via the Codeforces API, merges them with student levels and generates a styled multi-page **PDF report**.

upsolve_tracker — Codeforces Upsolve Planner (Solo) GitHub
Google Apps Script, Google Sheets, HTML Service, Codeforces API, clasp

- Pulls near-miss problems, schedules them over the coming days, times solves and **detects AC automatically**; vjudge sync and a dashboard.

Hasnahena — Interest-Free Cooperative Finance Platform (Solo, in production) hasnahenafoundation.com
Next.js, TypeScript, Go, PostgreSQL (Neon), Vercel, Render, Cloudflare

- Sole developer of a **live** finance platform for a Jashore cooperative (since Aug 2026) with a transactional Go ledger and daily reconciliation.
- Verified with **400k-iteration** money property tests, a chi-square uniformity test of generated secrets, Postgres integration tests and a load test at **~180 postings/s**.

EXPERIENCE & LEADERSHIP

Industrial Trainee, JB Connect Ltd (JBC) 2026 | 4 weeks

- Industry sessions on **AI/ML**, backend and DevOps, working on tasks with company teams; group project content-automation.

President, MIST Computer Club Jun 2026 – Present
Vice President (May 2025 – Jun 2026) | *Executive Member (May 2024 – May 2025)*

- Lead strategy and mentor **15+ core members** delivering **10+ technical events a year**; direct ICPC camps and workshops reaching **200+ students**.

Competitive Programming Instructor, MIST Computer Club May 2024 – Present

- Mentor **50+ junior students** in algorithms with an **80% retention rate**; curated 20+ problem sets and mock contests.

COMPETITIVE PROGRAMMING

Codeforces Specialist (max 1514) | **CodeChef** 3-Star (max 1722) | **1700+** problems solved on 5 online judges

BUP IAUPC 2025	**Champion**	ICPC Asia Dhaka Regional 2024 *(univ. teams)*	**117th**
ICPC Asia Dhaka Regional 2025 *(univ. teams)*	**38th**	Meta Hacker Cup 2024	**Round 2**
