Md Saif Ahmed

Cybersecurity Practitioner · Web Security Instructor · Competitive Programmer

saifahmedsakib@gmail.com · +880 1701-667488 · github.com/saif-sakib · Codeforces: Saif_Ahmed008 · LinkedIn

SUMMARY

- CTF competitor: **Rank 5** Cyber Drill 2025, **Rank 34 globally** in Bugcrowd USA CTF 2025, multiple finals.
- Web security instructor (OWASP Top 10, pentesting), trained 30+ students; 70+ PortSwigger labs completed.
- Builds security tooling (BruteBuddy) and secure web apps with RBAC, rate limiting and input validation.

EDUCATION

B.Sc. in Computer Science & Engineering — **2023 – 2027 (Expected)**
Military Institute of Science and Technology (MIST), Dhaka
CGPA: **3.58** / **4.00** (up to Level-3, Term-2)

Higher Secondary Certificate (HSC) — **2022**
Govt. M. M. College, Jashore
GPA: **5.00** / **5.00**

CYBERSECURITY ACHIEVEMENTS

Cyber Drill 2025 — WTISD Hackathon	**Rank 5**	Bugcrowd USA CTF 2025	**Rank 34 (Global)**
SMP CTF 2024	**Rank 13**	BCS ICT Fest CTF 2025	**Rank 18**
Cyber Raid 2025 (Finals)	**Rank 18**	DIU Cybercon CTF 2025 (Finals)	**Rank 18**
BUET CTF 2024 (Finals)	**Rank 18**	BUP CTF 2025	**Rank 18**

Training: PortSwigger Academy (70+ labs) · TryHackMe (29 rooms) · PicoCTF (67+) · OverTheWire Natas · eShikhon Ethical Hacking · MCSC Ethical Hacking & Security Analysis

TECHNICAL SKILLS

Security	Web Application Security, OWASP Top 10, Penetration Testing, Cryptography, Network Security
Security Tools	Burp Suite, Wireshark, Packet Tracer, gitleaks, Linux (Arch/Ubuntu), BruteBuddy (own tool)
Secure Dev	JWT + revocation, bcrypt, RBAC, CSP, rate limiting, audit logs, input validation
Languages	Python, C++, Go, JavaScript, TypeScript, Java, SQL, Bash
Web & Infra	Node.js, Express.js, FastAPI, React, Next.js, PostgreSQL, MongoDB, Docker, Cloudflare

PROJECTS

Hasnahena — Interest-Free Cooperative Finance Platform (Solo, Live) — **Live site**
Tech Stack: Next.js, Go, PostgreSQL, Cloudflare, Sentry, gitleaks
- Secured a **live** finance app holding real balances and NID documents: RBAC, bcrypt, JWT with server-side revocation in both backends, login lockout and rate limiting.
- Append-only audit logs via DB trigger, per-route Content Security Policies (CI asserts zero violations), anti-enumeration auth responses, gitleaks over full history.

BruteBuddy — Automated Security Testing Tool — **GitHub**
Tech Stack: Python, requests, Multi-threading, CLI
- CLI for **automated fuzzing** and brute-force testing of login endpoints: multi-field payloads, generated values, payload combinations, headers/cookies, auto re-authentication.
- Parallel requests with `ThreadPoolExecutor`, achieving **3× faster execution**.

LEADERSHIP & EXPERIENCE

Web Security Instructor — **May 2024 – Jun 2026**
MIST Cyber Security Club (MCSC)
- Ran hands-on workshops on **OWASP Top 10** vulnerabilities and real-world exploitation scenarios.
- Trained **30+ students** in penetration testing methodology and secure coding practices.

Executive Director, Mentor Committee (Jun 2025 – Jun 2026): coordinated security mentoring initiatives and learning tracks.

President, MIST Computer Club (Jun 2026 – Present): 15+ core members, 10+ events/year, ICPC camps for 200+ students. **CP Instructor** (May 2024 – Present): mentoring 50+ students. Earlier: Vice President (2025–26), Executive Member (2024–25).

COMPETITIVE PROGRAMMING

Codeforces **Specialist** (Max 1514) · CodeChef **3-Star** (Max 1722) · 1700+ problems solved
Champion, BUP IAUPC 2025 · **Rank 38**, ICPC Asia Dhaka Regional 2025 · **Rank 117**, ICPC Dhaka Regional 2024 · **Rank 16**, DUET IUPC 2025 · Meta Hacker Cup 2024 Round 2
